Understanding how Index Account return is determined

The return of an Index Account is determined by the Segment Crediting Interest it earned over a one-year period, which is based on the following factors:

- Index Change Rate: The annual price return of an underlying index.
- Cap Rate: The maximum limit of an index's annual price return you may earn.
- Guaranteed Floor Rate: It provides protection against market losses.
- Participation Rate: It represents the proportion of an index's annual price return you may earn.

The below scenarios demonstrate how these factors can influence the return you may receive in the Index Account:

- Scenario 1: When the Index Change Rate is higher than the Cap Rate
- Scenario 2: When the Index is uncapped
- Scenario 3: When the Index Change Rate is negative

Calculation example for Global Index Account

Index	Index Change Rate	Participation Rate	Index Cap Rate	Index Floor Rate	Index Growth Rate	Index Weighting	Weighted Interest Contribution
S&P 500 Index	9.00%	100.00%	8.20%	0.00%	8.20%	40.00%	3.28%
Hang Seng Index	9.00%	100.00%	10.40%	0.00%	9.00%	35.00%	3.15%

Segment Crediting Interest Rate							13.00%

* The Participation Rate to be declared is guaranteed to be no less than 50% throughout the life of the policy.

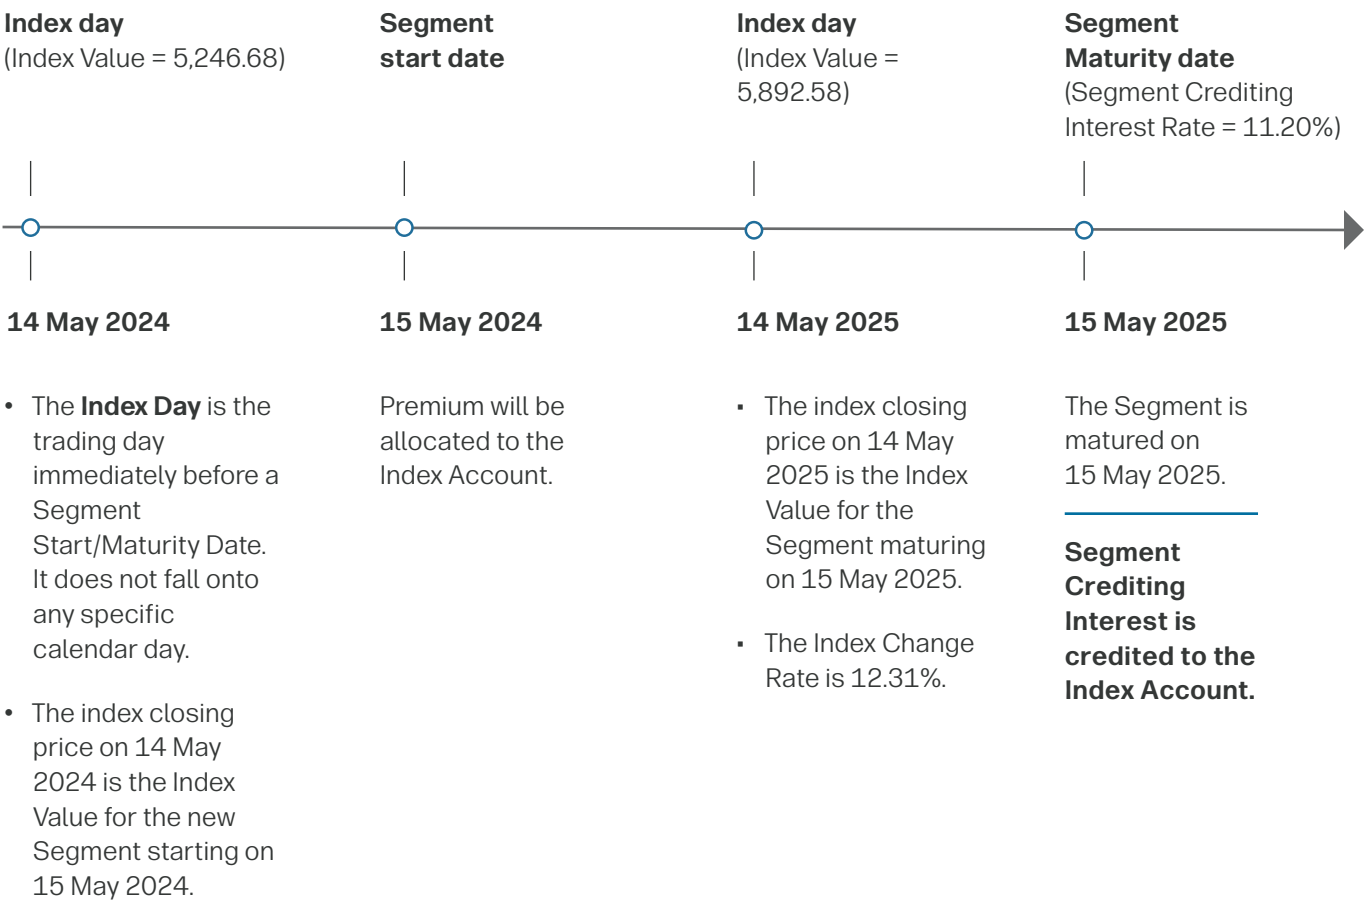

Important notes:

1. We may use fixed and non-fixed income assets including but not limited to bonds, equities and derivatives as our investment strategy, but the Segment Crediting Interest Rate is determined by the Index Change Rate subject to the Participation Rate, the Cap Rate (if applicable) and the Guaranteed Floor Rate as illustrated above.
2. The Segment Crediting Interest will only be credited to a Segment on the Segment Maturity Date, which is 12 calendar months from the Segment Start Date. For the avoidance of doubt, there will not be any pro-rata interest to be credited to a Segment before the Segment Maturity Date.

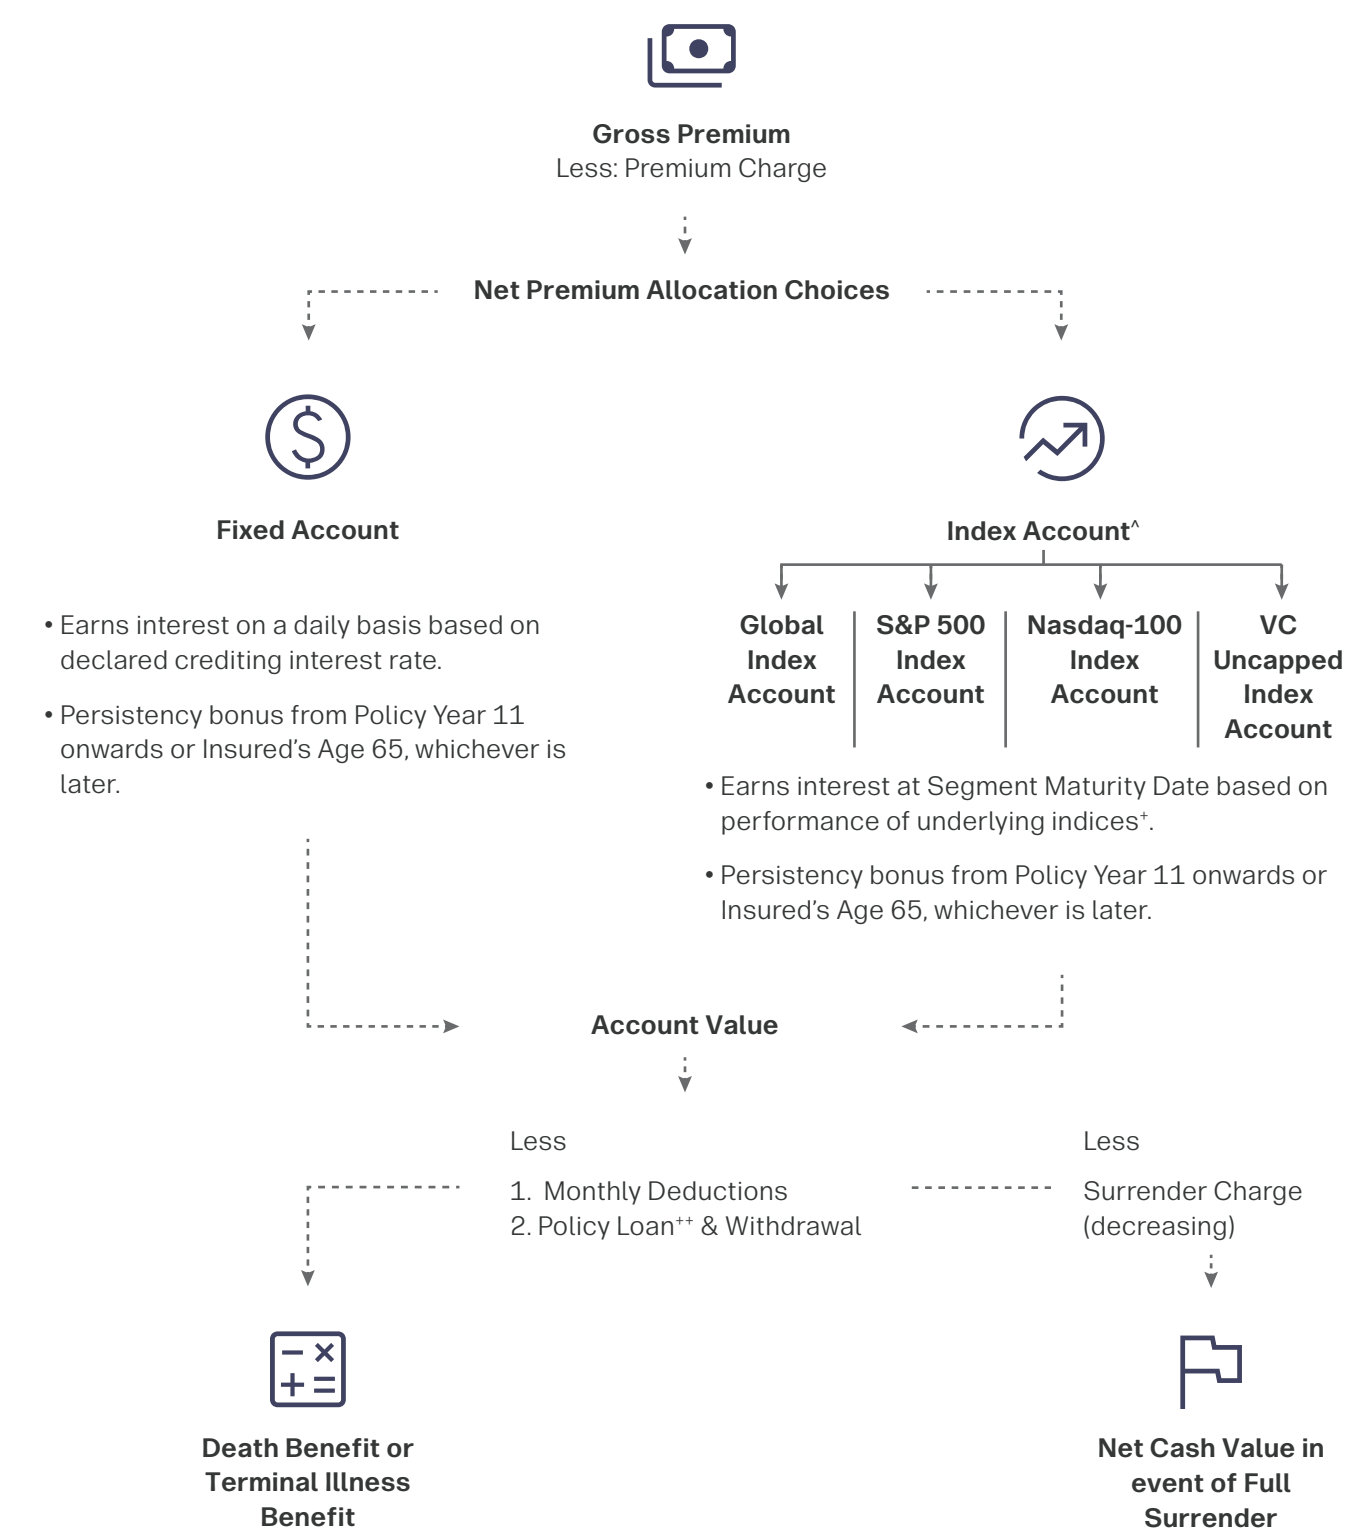

The date to receive the return from the Index Account

The respective Segment Crediting Interest will be credited to the Index Account only after the Segment has reached maturity, which spans across the duration of one year. Segment is used to identify and segregate each fund allocation to each sub-account of the Index Account at different times. It is created on the 15th of each calendar month (i.e. Segment Start Date) and matures on the 15th of the same calendar month next year (i.e. Segment Maturity Date).

Example: You paid premium on 1 May 2024 and plan to allocate it to the S&P 500 Index Account

Product overview

[^] Net Premium to be allocated to Index Account in a lump sum will first be allocated to Holding Account before the next Segment Start Date, where it will earn the same crediting interest rate and persistency bonus as the Fixed Account. On the next Segment Start Date, the Net Premium will be transferred to the sub-account(s) specified by you.

⁺ Segment Crediting Interest is calculated and credited at Segment Maturity Date only.

⁺⁺ For details of the Loan Account, please refer to policy contract.

Summary of charges

Surrender Charges

Surrender Charges are applicable in the first 15 Policy Years and apply in case of policy termination, full surrender, Withdrawal (except Surrender Charge-free Withdrawal), decrease of Sum Assured, and Lapse.

The surrender value will be the Net Cash Value at the time of surrender.

Access to the cash value

Withdrawal¹

Withdrawal is available any time after the Cooling-off Period, subject to the terms of the policy contract.

Amount of Withdrawal and applicable Surrender Charges will reduce the Sum Assured. The reduced Sum Assured cannot be lower than the minimum Sum Assured.

Surrender Charge-free Withdrawal¹

Starting from Policy Year 6, you may make a Withdrawal, up to 10% of the Account Value per Policy Year without incurring a Surrender Charge. The Surrender Charge-free Withdrawal will not reduce the Sum Assured.

Policy Loan

Policy Loan is available any time after the Cooling-off Period, subject to the terms of the policy contract. You must pay interest on the total balance of each Policy Loan in advance, on the date on which the Policy Loan is taken out and thereafter on each Policy Anniversary. The Policy Loan Interest Rate is 8.00% p.a. (7.40% p.a. in advance). The Policy Loan Crediting Interest Rate will be 5.50% p.a. Any outstanding Policy Loans will be secured by a Loan Account which is an account for a specified sum of account value set aside as security for any Policy Loan taken, on which the Policy Loan Interest Rate will be applied.

¹ Once any TI Benefit is paid, Withdrawal, decrease in Sum Assured, Future Insurability Option and Insured Exchange Option will not be available.

Important notes

Termination of Insurance

The policy will terminate at the earliest of:

- The date we receive your Written Request to surrender or terminate the policy;
- The date the policy Lapses;
- The date Death Benefit is fully accelerated on the TI of the Insured; and
- The date of the Insured's death.

The policy will enter the Grace Period if there is insufficient Account Value (less any amount outstanding on all Policy Loan) or the policy's Net Cash Value is less than the total Monthly Deduction due (plus any Policy Loan interest due but not paid) on any Monthly Policy Date.

You will have a 61-day Grace Period during which you may make any necessary payments to keep your policy in force. If you do not pay the required amount within that Grace Period, your policy will Lapse and it will result in the loss of your life insurance protection.

Please note that fees and charges will continue to be deducted as long as the policy is in force. You should give careful consideration to any decision to terminate your policy.

Right to cancel the policy

You have the right to cancel the policy within the Cooling-off Period after purchase.

You may return the policy to us or the authorised representative through whom you bought it within 21 days after you receive the policy. We will cancel the policy and void it from the beginning. We will refund any premiums paid. No refund shall be made if a claim has been paid on the policy or if the cancellation request and the policy are not returned to us within the specified 21 days.

Key product risks

Credit risk

Opus One Indexed Universal Life is an indexed universal life insurance policy underwritten and issued by Transamerica Life Bermuda. All premiums paid towards your policy will become and remain part of Transamerica Life Bermuda's assets. You do not have any rights or ownership over any of these assets. Your recourse is against Transamerica Life Bermuda only.

You take the risk of loss should Transamerica Life Bermuda fail to meet any of the benefits the policy offers. As a result, you may lose all the premiums you have paid and the insurance coverage.

You may refer to Transamerica Life Bermuda's company factsheet to learn more about our Company.

Currency risk

The currency of Opus One Indexed Universal Life is the US dollar. That means the payments you make and the benefits paid out from the policy are both in US dollars. As the value of the US dollar fluctuates against other currencies, if your home currency is not the US dollar, the payments you make or receive may be worth more or less over time when expressed in your home currency.

Risk of crediting interest rate adjustment in Fixed Account and Holding Account

Transamerica Life Bermuda determines the declared crediting interest rate (CIR) in the Fixed Account and Holding Account by considering various factors based on the Company's CIR philosophy.

The CIR affects the account value within the Fixed Account and Holding Account of your policy. The CIR of Opus One Indexed Universal Life is fixed for the Lock-in Crediting Interest Rate Period. After that, we may increase or decrease the CIR. However, we guarantee that the CIR will not be lower than the Guaranteed Minimum Crediting Interest Rate of 2.00% p.a. for the first 10 Policy Years and thereafter, 1.50% p.a.

Beginning on the Policy Anniversary at the Insured's age 121, the account value in the Fixed Account and Holding Account will accrue interest at the Guaranteed Minimum Crediting Interest Rate.

The account value in the Fixed Account and Holding Account will be affected if the CIR drops, as a lower amount of interest will be added to it.

Risk of Cap Rate and Participation Rate adjustment in Index Account

The actual Segment Crediting Interest Rate applicable to your policy may be higher or lower depending on actual performance of the constituent index or indices. Subject to the Guaranteed Floor Rate, it is also dependent on the declared Cap Rate and declared Participation Rate, where applicable, which are subject to review and determined by Transamerica Life Bermuda from time to time. The determination of Cap Rate and Participation Rate is subject to various factors based on Transamerica Life Bermuda's Cap Rate and Participation Rate Philosophy. You may need to make additional premium payments to keep the policy in force.

Inflation risk

As a result of inflation, the benefits you receive in the future may not be worth as much in relative terms as they are today.

Policy exclusion for suicide

If the Insured person commits suicide within two years from the later of the Policy Issue Date and the Reinstatement Effective Date (if applicable), we will not pay the Death Benefit. We will only return the premiums you paid for the policy up to that time, less any Withdrawal amount, any TI Benefit paid, any outstanding Policy Loan and Policy Loan interest due.

Exclusions and limitations

These contents provide an overview of the product features and key product risks. Please refer to the policy application form and policy provisions for the exact terms and conditions and take particular note of those terms where we will not pay the policy benefits.

Opus One Indexed Universal Life (the "Product") is not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, any of their respective affiliates (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices do not make any representation or warranty, express or implied, to the owners of the Product or any member of the public regarding the advisability of investing in securities generally or in the Product particularly or the ability of the S&P 500 Index and the S&P 500 Volatility Stabilizer Index to track general market performance. Past performance of an index is not an indication or guarantee of future results. S&P Dow Jones Indices' only relationship to Transamerica Life Bermuda with respect to the S&P 500 Index and the S&P 500 Volatility Stabilizer Index is the licensing of the Index and certain trademarks, service marks and/or trade names of S&P Dow Jones Indices and/or its licensors. The S&P 500 Index and the S&P 500 Volatility Stabilizer Index are determined, composed and calculated by S&P Dow Jones Indices without regard to Transamerica Life Bermuda or the Product. S&P Dow Jones Indices have no obligation to take the needs of Transamerica Life Bermuda or the owners of the Product into consideration in determining, composing or calculating the S&P 500 Index and the S&P 500 Volatility Stabilizer Index. S&P Dow Jones Indices have no obligation or liability in connection with the administration, marketing or trading of the Product. There is no assurance that investment products based on the S&P 500 Index and the S&P 500 Volatility Stabilizer Index will accurately track index performance or provide positive investment returns. S&P Dow Jones Indices LLC is not an investment adviser, commodity trading advisory, commodity pool operator, broker dealer, fiduciary, promoter (as defined in the Investment Company Act of 1940, as amended), "expert" as enumerated within 15 U.S.C. § 77k(a) or tax advisor. Inclusion of a security, commodity, crypto currency or other asset within an index is not a recommendation by S&P Dow Jones Indices to buy, sell, or hold such security, commodity, crypto currency or other asset, nor is it considered to be investment advice or commodity trading advice. SPDJI provides indices that use environmental, social and/or governance (ESG) indicators (including, without limit, business involvement screens, conformance to voluntary corporate standards, GHG emissions data, and ESG scores) to select, weight and/or exclude constituents. ESG indicators seek to measure a company's, or an asset's performance, with respect to E, S and/or G criteria. ESG indicators are derived from publicly reported data, modelled data, or a combination of reported and modelled data. ESG indicators are based on a qualitative assessment due to the absence of well-defined uniform market standards and the use of multiple methodologies to assess ESG factors. No single clear, definitive test or framework (legal, regulatory, or otherwise) exists to determine labels such as, 'ESG', 'sustainable', 'good governance', 'no adverse environmental, social and/or other impacts', or other equivalently labelled objectives. Therefore, the exercise of subjective judgment is necessary. Different persons may classify the same investment, products and/or strategy differently regarding the foregoing labels.

NEITHER S&P DOW JONES INDICES NOR THIRD PARTY LICENSOR GUARANTEES THE ADEQUACY, ACCURACY, TIMELINESS AND/OR THE COMPLETENESS OF THE S&P 500 INDEX AND THE S&P 500 VOLATILITY STABILIZER INDEX OR ANY DATA RELATED THERETO OR ANY COMMUNICATION, INCLUDING BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATION (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P DOW JONES INDICES SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN.
